This White Paper is not intended as an offer to sell or a solicitation to purchase any tokens. ABPX presents this White Paper solely to gather feedback and comments from the public. If ABPX decides to offer tokens for sale in the future, it will do so through formal offering documents, which will include a detailed disclosure statement and an analysis of associated risks. These documents will likely contain an updated version of this White Paper, which may differ significantly from the current version.

Should ABPX make such an offering in the United States, it will likely be available only to accredited investors. This White Paper should not be regarded as a guarantee or promise of how the ABPX business or the tokens will develop, nor of the utility or value of the tokens. It outlines current plans that may change at ABPX's discretion.

The success of these plans will depend on various factors beyond ABPX's control, including market conditions and factors within the cryptocurrency and data industries. Any forward-looking statements are based solely on ABPX's analysis of the issues discussed in this White Paper, and this analysis may prove to be incorrect.

Introduction

Blockchain technology has fundamentally transformed how we perceive transactions, security, and the management of digital assets. ABPX brings a forward-thinking perspective to this evolving landscape by integrating the efficiency and scalability of the Solana blockchain with practical applications in payment systems, loyalty programs, and decentralized governance.

By leveraging Solana's high throughput and low transaction costs, ABPX enables seamless, secure, and cost-effective transactions—making it a powerful main payment tool for both businesses and individuals. Beyond payments, ABPX introduces a dynamic loyalty ecosystem that rewards users for participation and engagement, fostering long-term value and community growth.

Additionally, ABPX incorporates governance mechanisms that empower stakeholders to participate in decision-making, ensuring transparency and inclusivity in the ecosystem's evolution. Through this combination of payment utility, loyalty incentives, and decentralized governance, ABPX redefines how blockchain technology can drive everyday digital and financial interactions.

\$ABPX

\$ABPX Technology

ABPX Technology is built on the Solana blockchain, one of the fastest and most efficient decentralized networks in the world. By leveraging Solana's high-performance architecture and scalable infrastructure, ABPX Technology ensures fast, secure, and cost-effective transactions across its ecosystem.

The choice of Solana provides several advantages:

High Speed & Low Cost: Solana's advanced consensus mechanism allows ABPX Technology to process thousands of transactions per second with minimal fees, making it ideal for real-time payment processing and large-scale user adoption.

Security & Reliability: Solana's decentralized validator network and cryptographic security protocols provide strong protection against fraud, double-spending, and malicious attacks. Every transaction is recorded immutably on the blockchain, ensuring transparency and trust.

Scalability: Solana's design enables ABPX Technology to scale efficiently without sacrificing performance or user experience, supporting the growth of its payment tools, loyalty rewards, and governance system.

Smart Contract Automation: The use of Solana-based smart contracts allows ABPX Technology to automate key ecosystem functions—including loyalty rewards, staking, and governance voting—without intermediaries, ensuring efficiency and transparency.

Tokenomics

Token Name : ABPI MALL (\$ABPX)

Total Supply : 10000000000 (10B)

Fair Launch On : Solana (\$SOL)

CA : 3rG6XzEzXpj6jgckmRP3QmgpsKtWabkusk2V59pDtatC

Token Allocation

- Community & Ecosystem (45%)
- Treasury & Development (15%)
- Team & Advisors (15%)
- Strategic Partnerships (10%)
- Liquidity & Exchange Listings (10%)
- Marketing & Awareness (5%)

Token Utility

- **Payment Utility:** Serves as the primary medium of exchange within the ABPX ecosystem, enabling fast, secure, and low-cost transactions on the Solana blockchain.
- **Loyalty Rewards:** Token holders earn incentives through the ABPX Loyalty Program, rewarding active users, merchants, and partners for their engagement and contributions to the ecosystem.
- **Staking Rewards:** Holders can stake ABPX tokens to earn passive income while supporting network stability and liquidity.
- **Governance:** Token holders have the right to vote on proposals related to ecosystem development, feature upgrades, and community initiatives, ensuring decentralized decision-making within ABPX Technology.
- **Incentives & Ecosystem Growth:** Rewards are distributed to users, businesses, and developers who contribute to expanding the ABPX network, promoting long-term sustainability and adoption.

TEAM

ABPX Team

ABPX Technology is developed and managed by a multidisciplinary team of professionals with expertise in blockchain technology, financial systems, digital payments, and business innovation. The diversity and experience of the team ensure that ABPX is positioned not only as a powerful blockchain-based payment solution but also as a platform that promotes transparent governance and user engagement through loyalty-driven ecosystems.

Core Team

- Alexander Chen – Founder & CEO : Visionary entrepreneur with over 12 years of experience in fintech and blockchain innovation
- Dr. Olivia Park – Chief Technology Officer (CTO) : Blockchain engineer and former Solana core contributor with deep expertise in smart contract architecture, payment infrastructure, and blockchain scalability.
- Ethan Roberts – Chief Operating Officer (COO) : Background in operations and financial technology strategy. Oversees business partnerships, global payment integrations, and ecosystem scalability to ensure efficient platform operations.
- Nadia Kusuma – Chief Product Officer (CPO) : Expert in digital products and loyalty systems. Responsible for designing and implementing the ABPX Loyalty Program, enhancing user experience, and ensuring sustainable ecosystem engagement.
- Marcus Tan – Head of Marketing & Community : Specialist in blockchain marketing, brand development, and community engagement. Leads growth campaigns and partnership strategies to expand the global ABPX network and user base.

Advisory Board

- Prof. Daniel Lee – Blockchain & Infrastructure Advisor : Renowned blockchain researcher specializing in Solana and high-throughput consensus systems.
- Sophia Martinez – Financial & Compliance Advisor : Former investment strategist with extensive experience in digital assets and tokenomics.
- James Okoro – Governance & Policy Advisor : Expert in decentralized governance and digital policy frameworks.
-

\$ABPX

Conclusion

ABPX represents more than just a digital token — it is a vision to redefine how blockchain technology powers real-world financial interaction. By leveraging the speed, scalability, and efficiency of the Solana blockchain, ABPX creates a seamless ecosystem that connects payment solutions, loyalty programs, and decentralized governance in one integrated platform.

We believe that blockchain is not only about financial innovation but also about empowering people and communities. ABPX aims to provide users, businesses, and organizations with the tools to transact, earn, and participate in governance with transparency and trust.

As with any evolving project, the journey of ABPX will continue to grow and adapt—shaped by community feedback, market dynamics, and technological advancements.

We invite you to be part of this movement: to build together a faster, smarter, and more inclusive digital future powered by the Solana blockchain.
